20 October 1967

MEMORANDUM FOR: Director of Security

SUBJECT : Office of Security Statistical Report  
for SEPTEMBER 1967

1. The attached tables reflect some of the activities of certain components of the Office of Security during SEPTEMBER 1967.

2. The statistics in the tables are compiled by the component concerned and refer to the current month.

3. The month of September continued what appeared to be an early trend in the reduction of the overall number of pending overt cases and staff applicant cases. A comparison was made with the pending figures of September 1966 to that of the reporting period and it revealed reductions in the pending workload of 10% in overt cases and 17% in staff applicant cases.

4. Another interesting observation was to note the role of the Special Activities Division with respect to the number of support manhours worked. This Division accounted for 46% of the overall total of almost [REDACTED] manhours worked. The past reporting period was the highest month since the beginning of FY 1967 and was an actual increase of 33% over that worked in September 1966.
